Tahko-Arena in the middle of the race

12.11.2009 12:10 |

The early morning was not that bright – 50 minutes were spent in transition to go to short route. Girls almost managed to get into cut-off time – only 1 minute late, but organizers were strict – and next stage should be done in short course. It will be about 60km MTB and some optional checkpoints on a route. At approximately 10AM girls should appear at transition AssistArea4, where they will re-enter full course.
